

UNLOCKED (no. 2020-1-HU01-KA204-078660)

SECOND MULTIPLIER EVENT

21 December 2022

Crime Prevention Fund - IGA

Participants:

As per the attached list of participants.

Present on behalf of IGA:

1. Dimitar Rusinov, Chairman of the Board and Unlocked project staff member
2. Andrey Momchilov, Member of the Board and Unlocked project staff member

Subjects:

1. Just like the first multiplier event, a presentation of the project, objectives, activities and partners was done by Andrey Momchilov, after the welcoming greetings by IGA's Chairman Dimitar Rusinov.
2. The second activity was presenting Intellectual Output 6. The participants were informed about the four products developed by the partners.
3. The third activity presenting Intellectual Output 8. The participants were informed about the four products developed by the partners.
4. After lunch, Intellectual Output 9 was presented to the participants by showing them the materials developed by the partners.
5. After the presentation of the Intellectual Outputs developed in the period after the first multiplier event, a recapitulation of the developments related to Intellectual Outputs 1, 4 and 5 was done. An important reason for this was to introduce to participants that had not attended the first multiplier event the first project outputs, and at the same time give update to those who attended the first multiplier.
6. As a next activity, a discussion on the practical possibilities to use the newly developed Intellectual Outputs was facilitated. IGA presented its new project aiming to bring theater and in particular educational theater to disadvantaged young people in Plovdiv.
7. The event ended with feedback from participants and closing words by IGA's Unlocked project staff members.

Notable comments from participants:

Maria Cheshmedzhieva, Manager of the Crisis Center for Victims of Violence and Trafficking undertook to host an “exhibition” of the “50 Faces of Inspiration” in the building of the Crisis Center.

Several participants asked about the availability of IO8 games as a final product.

Rositsa Mirazchieva of the Observed Home has undertaken to organize testing of the Crash Course in Cooking in the new apartment of the Observed Home.
